THE AMARONE WINE

The hilly area of Valpolicella, located northwest of Verona, is strongly characterized by the presence of vines, which extend as far as the eye can see in a hilly landscape enriched by imposing Venetian villas, capitals, parish churches, courtyards and small churches. The vast wine production of Valpolicella finds its maximum expression in Amarone, a wine appreciated and exported throughout the world. The term Amarone contains a clear reference to 'bitter', an adjective adopted to distinguish Amarone from the sweetness of Recioto, the sweet and velvety wine from which it originated.
